Toronto :

THE WILLIAMSON BOOK CO. (LTD.)

1894.

Entered according to Act of Parliament of Canada by the WILLIAMSON BOOK COMPANY, Limited, in the office of the Minister of Agriculture, in the year of our Lord One Thousand Eight Hundred and Ninety-Three.

PREFACE

The larger number of our Chartered Banks and other Monetary Institutions having adopted the rate of three and one-half per centum as their standard for deposit accounts, the publishers have been asked to prepare a special book for that rate.

The work has been carefully done by an expert of large experience; every care has been taken to ensure accuracy, and the result will, it is believed, be thoroughly satisfactory.

The type used has been chosen for its clearness, and is an improvement on that in general use, while the quality of paper and printing equals our well and favorably known four to ten per centum book.

EXPLANATION AS TO COMPUTING INTEREST

The number of days are marked at the top of each page, and the four "Dollars" columns represent the principal.

For amounts under even hundreds remove the decimal point to the left according as you divide the principal by 10 or 100. Thus, to find the interest on \$940.00 for 320 days at $3\frac{1}{2}\%$, remove the point one figure to the left, making the interest \$28.84.3; interest on \$94.00 = \$2.88.4, remove the decimal point two places, and to find the interest on \$9.40 remove the point three places, making it .28.8, say 29 cents.

To find the interest on even hundreds over and above \$10,000 remove the decimal point to the right thus:

$$\begin{array}{l} \text{Interest on \$100,000 for 316 days} = \$3030.14 \\ \text{" " " 85,000 " 322 " " } = 2624.52 \end{array}$$

EXAMPLES

Required 39 days interest on \$2678.62 at $3\frac{1}{2}\%$.

$$\begin{array}{r} \$2600 = \$9.72,3 \\ 79 = 29,5 \\ \hline \$10.01,8 \dots \text{say } \$10.02 \end{array}$$

Required 247 days interest on \$3481.20 at $3\frac{1}{2}\%$.

$$\begin{array}{r} \$3400 = \$80.52,9 \\ 81 = 1.91,8 \\ \hline \$82.44,7 \dots \text{say } \$82.45 \end{array}$$

Required 219 days interest on \$85479 at $3\frac{1}{2}\%$.

$$\begin{array}{r} \$80,000 = \$1680.00,0 \\ 5400 = 113.40,0 \\ 79 = 1.65,9 \\ \hline \$1795.05,9 \dots \text{say } \$1795.06 \end{array}$$

NOTE.—When accuracy is desired, always carry out the mills in the calculation.

When there are 50 cents or more, compute the interest as on \$1, where there are less, disregard them.

THREE AND ONE-HALF PER CENT. PER ANNUM.

Accountants, Agents, Bankers, Brokers, Book-Keepers and
Business Men Generally,

Would Save Time and Money

BY USING

THE RATE-INLAID TABLES

INTEREST 4% TO 10%.

The Manager of one of our Banks says:—"They are a great improvement upon any Interest Tables at present in use. The ease and accuracy with which calculations of interest can be made, without running the eye first up and then down a long line of figures, will of itself commend the Tables to every Bank officer.

The chief accountant of one of our oldest Banks says:—"From my experience in computing interest on paper discounted, I consider your system the best and most time-saving of any which have hitherto been under my notice."

Another Bank-Cashier says:—"I am happy to testify to the superiority of your Tables over anything I have yet seen. The novel system of tinted Rates and the improved plan of ruling must commend themselves strongly to all who use them, as being just what is required to assist the eye to determine the desired amount at a glance."

The *Monetary Times*, Toronto, in a review of the Work, says:—"Interest Tables are so necessary a part of desk furniture for business men, that any improvement of them must be generally welcomed. We have seen the Rate-Inlaid Interest Tables in which a novel convenience is found, which must save time and eyesight. The pages are tinted and the rate of interest water-lined, as it were, in large figures down the page at short distances apart, which relieves one from tracing out the corresponding amounts with a straight edge or with the finger. The book deserves a good sale."

**The Leading Banks, Investment, Insurance and other Offices use
THE RATE-INLAID TABLES.**

The Book is stoutly bound in Half Leather Back and Corners and Cloth sides. Mailed to any address, post free, on receipt of price. \$5.00 each.

An edition without the tinted figures, but printed from the same type and on the same excellent paper, can also be had. Price, \$3.00 each.
